Seraf:

ACRILIC PASTE FOR ADHESION OF TERRA COTTA ROOFING TILES

Description: Ready-to-use adhesive for gluing and repairing roofing tiles.

SERAF – acrylic adhesive was specially developed for adhesion and repairs of roofing tiles and roofing tile riders of all existing types. The adhesion is clean and has high tensile strength without formation of cracks. SERAF offers absolute resistance against moisture, ultraviolet rays and against tile loss in strong wind. SERAF is both user friendly and environmentally safe.

Technical characteristics: SERAF

Solids content 80 - 83%

Viscosity 2 – 3 million cPs (Brookfield RVT at 0.5 rpm spindle 95 at 25°C)

Colour orange, red, gray or black

Application Instruction:

Roof preparation:

Before adhesion of the riders on the ridge of the roof clean the tiles from dust, oils and loose objects. Pre-position the tiles on the roof before adhering SERAF.
